## research and practice in thrombosis and haemostasis™

Editor in Chief: **Mary Cushman**

### In this issue

**Color Use for Science  
Figures**

**VTE Risk in Pregnancy**

**Machine Learning to Predict  
VTE**

**Platelet Size & Receptor  
Expression**

# isth™

## Aims and Scope

*Research and Practice in Thrombosis and Haemostasis* (RPTH) is the newest journal of the International Society on Thrombosis and Haemostasis (ISTH) and the newest journal in the field of thrombosis and hemostasis. Complementing its flagship journal, the *Journal of Thrombosis and Haemostasis* (JTH), RPTH provides a dedicated Open Access home for science and discourse among researchers, clinicians, nurses, allied health professionals, and patients.

RPTH is a “living journal” and serves as a jumping point for digital discussion. It also reflects the current era of inter-disciplinary scientific discovery and new methods of knowledge dissemination and the wide reach of ISTH by featuring articles from all corners of the globe. RPTH provides rigorous, rapid peer review and immediate dissemination of research reports from basic, clinical, translational and population or public health science. The Journal is interested in quality, outcomes, dissemination and implementation science, seeking studies and trials on novel care delivery, including in areas of resource constraint around the world.

 Digital discussion is encouraged through our Twitter account @RPTHJournal and with hashtags #RPTH, #RPTHEditorial, #RPTHCommentary, #RPTHReview, #RPTHTutorial, #CoagCapsule

## Open Access and Copyright

All articles published by *Research and Practice in Thrombosis and Haemostasis* are fully open access: immediately freely available to read, download, and share. All *Research and Practice in Thrombosis and Haemostasis* articles are published under the terms of the Creative Commons Attribution-NonCommercial-No Derivs license (“CC-BY-NC-ND”), which permits users to copy, distribute, and transmit an article as long as the author is attributed, the article is not used for commercial purposes, and the work is not modified or adapted in any way. An exception is made for Contributors funded by agencies requiring use of a Creative Commons Attribution license (“CC-BY”) which permits others to use, distribute, reproduce, remix, tweak, and build upon the work in any medium (even commercially) as long as the Contribution is credited for the original creation. Such funders include the Research Councils UK, the Wellcome Trust and other funders recognized by the Publisher as requiring a CC-BY license, who may publish their Contributions under a CC-BY license.

Copyright on any research article published by *Research and Practice in Thrombosis and Haemostasis* is retained by the author(s). Authors grant Wiley a license to publish the article and identify itself as the original publisher.

Further information about open access license and copyright can be found at: <http://www.wileyopenaccess.com/details/content/12f25db4c87/Copyright--License.html>.

## Contact Details

*Research and Practice in Thrombosis and Haemostasis* is published by Wiley Periodicals, Inc., 101 Station Landing, Suite 300, Medford, MA 02155, USA.

Editorial Correspondence/Information for Authors: [rpth@jjeditorial.com](mailto:rpth@jjeditorial.com)

Production Editor: Kate Noe (email: [rpth@wiley.com](mailto:rpth@wiley.com))

# Research and Practice in Thrombosis and Haemostasis

Volume 4 • Issue 2 • February 2020

## Editorial

- 176 Choosing color palettes for scientific figures  
*Timothy B. Plante and Mary Cushman*

## Commentary

- 181 Predictive analytics by deep machine learning: A call for next-gen tools to improve health care  
*Philip Wells*

## State of the Art ISTH 2019

- 183 VTE risk assessment in pregnancy  
*Karl Ewins and Fionnuala Ní Ainle*

## Original Articles: Thrombosis

- 193 Use of GMI-1271, an E-selectin antagonist, in healthy subjects and in 2 patients with calf vein thrombosis  
*Sumana Devata, Dana E. Angelini, Susan Blackburn, Angela Hawley, Daniel D. Myers, Jordan K. Schaefer, Martina Hemmer, John L. Magnani, Helen M. Thackray, Thomas W. Wakefield, and Suman L. Sood*
- 205 Antibody inhibition of contact factor XII reduces platelet deposition in a model of extracorporeal membrane oxygenator perfusion in nonhuman primates  
*Michael Wallisch, Christina U. Lorentz, Hari H. S. Lakshmanan, Jennifer Johnson, Marschelle R. Carris, Cristina Puy, David Gailani, Monica T. Hinds, Owen J. T. McCarty, András Gruber, and Erik I. Tucker*
- 217 Serum amyloid A4 is a procoagulant apolipoprotein that it is elevated in venous thrombosis patients  
*José A. Fernández, Hiroshi Deguchi, Darlene J. Elias, and John H. Griffin*
- 224 The effect of pH on thrombin generation—An unrecognized potential source of variation  
*Søren Risom Kristensen, Jette Nybo, and Shona Pedersen*
- 230 Machine learning to predict venous thrombosis in acutely ill medical patients  
*Tarek Nafee, C. Michael Gibson, Ryan Travis, Megan K. Yee, Mathieu Kerneis, Gerald Chi, Fahad AlKhalfan, Adrian F. Hernandez, Russell D. Hull, Ander T. Cohen, Robert A. Harrington, and Samuel Z. Goldhaber*
- 238 Resting heart rate and incidence of venous thromboembolism  
*Aaron R. Folsom, Pamela L. Lutsey, Zachary C. Pope, Oluwaseun E. Fashanu, Jeffrey R. Misialek, Mary Cushman, and Erin D. Michos, for the Atherosclerosis Risk in Communities (ARIC) Study Investigators*
- 247 Myocardial infarction, prothrombotic genotypes, and venous thrombosis risk: The Tromsø Study  
*Joakim K. Sejrurp, Vania M. Morelli, Maja-Lisa Løchen, Inger Njølstad, Ellisiv B. Mathiesen, Tom Wilsgaard, John-Bjarne Hansen, and Sigrid K. Brækkan*
- 255 Impact of respiratory symptoms and oxygen saturation on the risk of incident venous thromboembolism—the Tromsø study  
*Trond Børvik, Line H. Evensen, Vania M. Morelli, Hasse Melbye, Sigrid K. Brækkan, and John-Bjarne Hansen*
- 263 Diagnostic yield of pulmonary embolism testing in patients presenting to the emergency department with syncope  
*Christopher Kelly, Joseph R. Bledsoe, Scott C. Woller, Scott M. Stevens, Jason R. Jacobs, Allison M. Butler, and James Quinn*
- 269 Patient-reported reasons for and predictors of noncompliance with compression stockings in a randomized trial of stockings to prevent postthrombotic syndrome  
*Andrew J. Dawson, Arash Akaberi, Jean-Philippe Galanaud, David R. Morrison, and Susan R. Kahn, for the SOX Trial investigators*

- 278 Dental extractions on direct oral anticoagulants vs. warfarin: The DENTST study  
*Yvonne Brennan, Ying Gu, Mark Schifter, Helen Crowther, Emmanuel J. Favaloro, and Jennifer Curnow*

### **Original Articles: Hemostasis**

- 285 Activation-induced changes in platelet surface receptor expression and the contribution of the large-platelet subpopulation to activation  
*Masaaki Moroi, Richard W. Farndale, and Stephanie M. Jung*
- 298 Global coagulation assays in hemophilia A: A comparison to conventional assays  
*Saman Aghighi, Anne Riddell, Christine A. Lee, Simon A. Brown, Edward Tuddenham, and Pratima Chowdary*
- 309 Hematuria in aging men with hemophilia: Association with factor prophylaxis  
*Christian Qvigstad, R. Campbell Tait, Philippe de Moerloose, and Pål Andre Holme, On behalf of the ADVANCE Working Group*
- 318 Hemophilia prophylaxis adherence and bleeding using a tailored, frequency-escalated approach: The Canadian Hemophilia Primary Prophylaxis Study  
*Saunya Dover, Victor S. Blanchette, Darius Wrathall, Eleanor Pullenayegum, Daniel Kazandjian, Byron Song, Sue Ann Hawes, Stéphanie Cloutier, Geroges E. Rivard, Robert J. Klaassen, Elizabeth Paradis, Nicole Laferriere, Ann Marie Stain, Anthony K. Chan, Sara J. Israels, Roona Sinha, MacGregor Steele, John K. M. Wu, and Brian M. Feldman*
- 326 Pharmacokinetic-tailored approach to hemophilia prophylaxis: Medical decision making and outcomes  
*Stacy E. Croteau, Allison P. Wheeler, Osman Khan, Kristina M. Haley, Alexandra J. Borst, Susan Lattimore, Cindy H. T. Yeung, and Alfonso Iorio*
- 334 Impaired platelet-dependent thrombin generation associated with thrombocytopenia is improved by prothrombin complex concentrates in vitro  
*Pratima Chowdary, Colleen Hamid, David Slatter, Richard Morris, Jonathan H. Foley, Keith Gomez, Edgar Brodtkin, Thomas A. Fox, Alex Gatt, and John H. McVey*

### **Case Report**

- 343 Pregnancy outcome in afibrinogenemia: Are we giving enough fibrinogen concentrate? A case series  
*Joline L. Saes, Britta A. P. Laros-van Gorkom, Michiel Coppens, and Saskia E. M. Schols*

### **Corrigendum**

- 347 Corrigendum
